

FIGGY & CO.

Multipurpose Bench Spray

1 teaspoon Home cleaning castile soap
1/2 teaspoon Baking soda

5-10 drops essential oils
500ml water

Add baking soda to bottle with a small amount of hot water to dissolve. Add castile soap and essential oils. Fill the bottle with water to make 500mls. For best results, give the bottle a shake before each use to activate the ingredients. Spray & wipe or wait 1-2 minutes for bigger messes before wiping away.

Cleaning Paste

200g Baking soda
50ml Figgy home cleaning castile soap

10-15 drops essential oil

Put ingredients together into a bowl and stir! Store airtight in your Figgy tub. If it dries out, add water to loosen. This is a dream to use on any hard surface, particularly in the bathroom and kitchen. Grease and grime will lift away without scouring.

Note: These recipes are safe for marble and natural stone.
